

SUSTAINABILITY DEVELOPMENT STATEMENT

QMAC's purpose and objectives in sustainability in construction are in development, which meets the needs of the present without compromising the ability of future generations to meet their own needs. The company will as far as reasonably practicable;

- ✚ Outline the realisation of a sustainable environment.
- ✚ Protect and enhance the immediate and surrounding environment in which we work.
- ✚ Provide information to assist well-informed and effective community participation in decision-making on issues related to sustainability.

With the support of local government and partnerships the company will adhere to deliver coherent and holistic programmes involving the local government, the voluntary sector and local communities which will enable us to meet this challenge and ensure that the environment in which we live will have a truly sustainable future.

QMAC will use the 6 principles of Sustainable Development through policies, developments, investigation, plans and procedures incorporated into the management system by;

1. Living within environmental limits
2. Ensuring a strong, healthy and just society
3. Achieving a sustainable economy
4. Promoting good governance
5. Using sound science responsibly
6. Promote Opportunity and Innovation

Our Sustainable Development Duty is an opportunity to expand and develop an existing role while improving services to the community.
